

Quick start guide

Home page

The Home page is where you land after logging into Elements.

Click on **EDIT MY PROFILE** to go to your Profile page. Scroll through the **MY ACTIONS** prompts. Every item has a link that takes you to the section in Elements where tasks can be completed, including:

- Set up your search settings
- Add author identifiers
- Claim scholarly and creative works
- Deposit publications
- Add records of impact

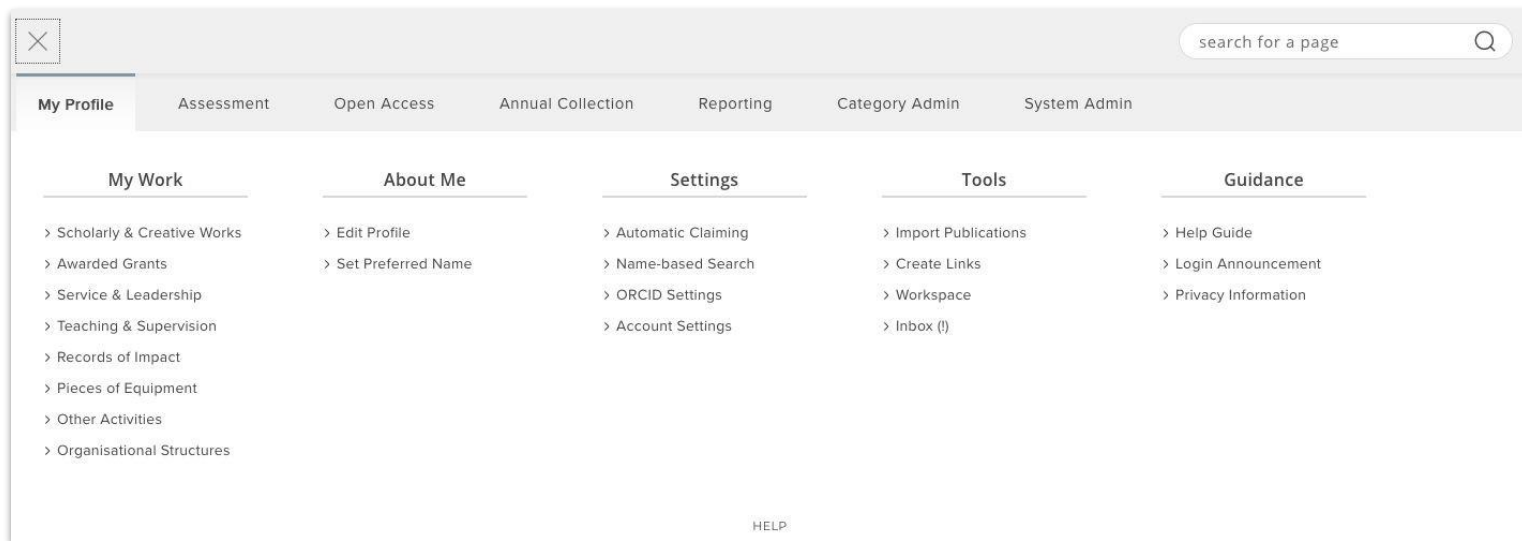

Data types in each activity section are active links. Click on any one to go to that activity type or add manual records by selecting **+ ADD NEW**.

The screenshot shows the Virginia Tech Elements homepage for user Barbara Lockee. The interface is divided into several sections:

- Header:** Virginia Tech logo and user name "Barbara Lockee".
- Homepage Title:** "Homepage".
- MY ACTIONS (3):** A list of three actions:
 - Deposit scholarly & creative works:** "You have 5 scholarly & creative works awaiting deposit to the repository. [View >](#)"
 - Record evidence of the impact of your work:** "You can create narrative statements to describe the impact of your work and attach files as supporting evidence. This allows you to collect, store and find evidence of impact. [Add >](#)"
 - Request a waiver:** "If required by your publisher, you can request a waiver from the Virginia Tech open access policy by completing this workflow. [Request waiver >](#)"
- User Profile:** A circular profile picture of Barbara Lockee, her name "Dr. Barbara Lockee", her department "Liberal Arts and Human Sciences", a "View my public profile >" button, and contact information "0000-0001-708-4529" and "lockeebb@vt.edu". Below this is an "EDIT MY PROFILE" link.
- Activity Sections:** Four columns of activity types, each with a "Claimed" list and a "VIEW ALL" link:
 - Scholarly & creative works:** Claimed items include 10 books, 35 book chapters or sections, 52 refereed journal articles, 39 journal articles, 104 conference papers or presentations, and 3 presentations (not at a conference) and 39 more scholarly & creative works.
 - Grants:** Claimed items include 4 proposals, 19 external funding, and 2 internal funding.
 - Professional activities:** Claimed items include 5 awards, honors, and recognitions, 41 committee service, 1 office held, 5 editorial/curatorial, 8 manuscript reviewing / refereeing, 1 grant proposal review, 20 promotion / tenure assessments, 1 program or institutional review, and 41 more professional activities.
 - Teaching activities:** Claimed items include 77 Virginia Tech courses taught, 1 other teaching, 1 course developed, and 86 graduate student supervisions.

Getting to know the Menu

Click on the Menu icon in the top left-hand corner to navigate around Elements.

The **My Profile** section contains various areas specific to you. You can either **browse** through the tabs or use the **Search** box in the upper right-hand corner to find pages. *Please note: The menu items available will depend on the configuration and licence at your organisation and your roles within the system.*

Managing your Profile

Your **Profile** can be viewed by any other user in the system.

Using **Edit Profile**, you can add additional items, such as your photo, an overview statement, your social media sites, and other categories included in the profile.

When you make your profile **Public**, information from it will be shared with [Virginia Tech Experts](https://guides.lib.vt.edu/VirginiaTechExperts), the university's public profile system. You can edit your profile and add new information as you prefer, then share it publicly by switching from Internal to Public. Once you have switched it to public access, you can hide any part of it that you do not wish to appear in the public profile system.

For more guidance on Virginia Tech Experts, see <https://guides.lib.vt.edu/VirginiaTechExperts>

The screenshot shows the 'Elements' profile page for Professor Daniel Hook. The page has a dark blue header with the 'Elements' logo and a user profile for 'Daniel Hook'. Below the header, the main content area is titled 'Professor Daniel Hook' and includes a photo of the professor, his title 'Visiting Professor', and his fields of interest: 'Digital Science' and 'Theoretical physics'. It also lists his ORCID ID, email, and work phone number. To the right of the main content, there are buttons for 'Edit Profile' and 'CV and Reports', and a section for 'Other profiles' with links to Google Scholar, arXiv, ORCID, and ResearcherID. Below this is a 'Co-authors' section with a pie chart showing the distribution of co-authorship among three individuals: Carl Bender (17), Dorje Brody (10), and Lane Hughston (4). Further down, there is a 'Links' section with a 'View all links' button, and a 'Find a colleague' section with a search bar. The main content area also features tabs for 'About', 'Scholarly & creative works', 'Professional activities', 'Teaching activities', and 'Grants'. The 'About' tab is currently selected, showing an 'Overview' section with a detailed academic biography and a 'Fields of Research' section with tags for 'Mathematical Aspects of Classical Mechanics', 'Quantum Mechanics and Quantum Information Theory', and 'Quantum Physics'. The 'Experience' section lists 'Academic appointments' and 'Non-academic employment'.

Claiming author identifiers

Elements will suggest **author identifiers** based on your name-based search settings, including identifiers from ORCID, Dimensions, Scopus, ResearcherID, arXiv, figshare and SSRN.

Approve or reject the identifiers using the Yes and No buttons. Elements will automatically retrieve publications in databases using these identifiers and place them in the 'Mine' or 'Not Mine' folders.

If the system does not find all of your identifiers, you can enter them by clicking on the "Add..." link.

The system will automatically import the address associated with your organization but you can add additional email addresses you may have published with previously.

Automatic claiming

Please tell us about the identifiers that are used to identify you in external data sources.

The more you can tell us, the less often you will be asked to verify which items are yours.

Do these identify you?

We'd like to use these to help clear your pending list, and possibly find more of your items online.

[ur:01123321343_51](#) Dimensions Researcher ID

Your figshare for Institutions account is controlled by system-wide settings and cannot be removed.

Manage

Claiming or rejecting publications

Elements will indicate when it finds new publications in the online databases that match your profile. These will be placed in the **Pending** list of your records to await your approval. One of the actions in your **My Actions** list will take you to the pending publications.

Claim or reject individual publications using the **check** or **"x"** buttons. Or you can select a number of publications using the checkboxes, then **claim** or **reject** the marked publications with the large buttons at the top of the list.

Claimed publications will move to the **Claimed** list and rejected to the **Rejected** list.

If you have lots of items that do not belong to you, work with your System Administrator to clear the Pending list, modify your search settings to improve the accuracy of the searches, and re-run your search.

My Publications

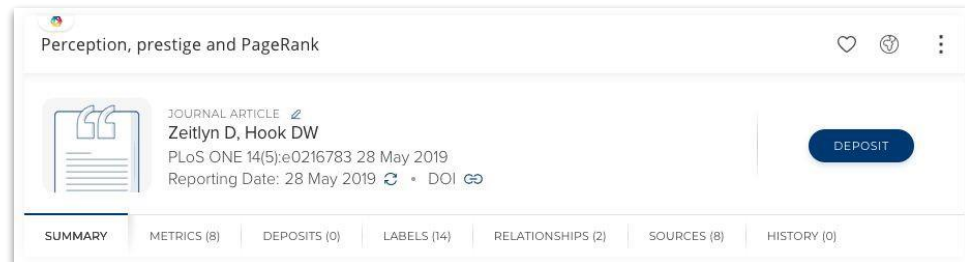

Your My Publications page, you can view various forms of data about your articles by clicking on the tabs at the bottom of the record.

To **change** the publication type select the **pen icon**, once selected you have a drop down menu of available types, **save** the new type.

This change will be recorded in history notes. If you **change your mind** you can always change it back without any loss of data.

Summary shows the basic bibliographic data, while **Metrics** displays the Times Cited and Altmetric data. **Labels** presents all of the ontologies available to be associated with the publication, while **Relationships** lists all of the other Elements users who are linked to the record.

Finally, **Sources** shows a list of the data sources that comprise the publication object and **History** is the log of all activities performed against the record.

Depositing publications to VTechWorks

After claiming or adding a publication, you can choose to **upload** it into VTechWorks, Virginia Tech's open access repository housed in the University Library. If you need to **set an exception** for your article (embargo or other access restrictions), choose an item from the pre-configured exception list and add a comment.

If your article is already available somewhere in Open Access form, you can simply enter the OA location URL.

The screenshot displays the VTechWorks web interface for depositing a publication. The header features the Virginia Tech logo and navigation icons. A breadcrumb trail shows the path to the current page. The main title of the article being deposited is 'Deposit scholarly & creative work: One year later...and counting: Reflections on emergency remote teaching and online learning'. A status bar indicates the user is about to deposit a journal article to VTechWorks. The interface is divided into two main sections: 'Deposit advice' and '1. Prepare deposit (step 1 of 3)'. The 'Deposit advice' section includes tabs for 'Institutional advice' and 'SHERPA RoMEO advice', with the 'Institutional advice' tab selected. It contains text explaining the deposit process and a link to the 'Policy 13000' (PDF). The '1. Prepare deposit (step 1 of 3)' section is titled 'Upload a file' and prompts the user to 'Choose a file from your local machine:'. It includes a 'Choose file:' button, a file selection dropdown showing 'One Year Later... & Learning | EDUCAUSE.pdf', a 'File version:' dropdown set to 'Published version', and a 'Use this file' button. A link to 'Leave without depositing' is also present.

VT VIRGINIA TECH

< RETURN TO THE PREVIOUS PAGE

Deposit scholarly & creative work: One year later...and counting: Reflections on emergency remote teaching and online learning

You are about to deposit this journal article to VTechWorks

Deposit advice

Institutional advice SHERPA RoMEO advice

You can deposit the accepted version of a scholarly article to VTechWorks under the new open access section of [Policy 13000](#) (PDF), regardless of your copyright transfer agreement. The accepted version includes changes made during the peer review process, and should be deposited within 30 days of the publication date.

Articles deposited in VTechWorks will be openly available online. VTechWorks is widely indexed, receives thousands of downloads per day from around the world, provides a permanent link, download statistics, and ensures article preservation. PDF is the preferred format, but files of almost any type will be accepted.

Email vttechworks@vt.edu if you have any questions.

1. Prepare deposit (step 1 of 3)

Upload a file

Choose a file from your local machine:

Choose file: Choose File One Year Later... & Learning | EDUCAUSE.pdf

File version: Published version

Use this file

[Leave without depositing](#)

Adjusting your Search Settings

Your search settings are preloaded with your name (usually in the form of LASTNAME, IN and LASTNAME, FIRSTNAME), but you can improve these settings by adding **Name variants** or **Address** terms.

Tip: Use the smallest meaningful word or term in an address. For example, enter “Oxford” and not “Oxford University.”

Tip: Additional search terms are restrictive. If you add **Keywords** or **Journals**, then Elements will only retrieve articles that include those keywords or published in those journals.

Don't forget to click **Save** when you're finished editing your search settings!

Name-based searches

These settings let you influence how the system performs 'name-based searches' for you, both at online databases and within existing data in the system. This kind of search will result in items being placed in your Pending list(s), for you to claim or reject.

Separate Identifier-based searches can be managed on the [Automatic Claiming page](#).

Daniel Hook's settings were last modified on 13 May 2019 at 12:06 by Mr Andrew Sowerby.

Name-based search terms

Name variants: *

(last name first)

+

Hook, D. W.

×

When adding name variants, please use the format "Lastname, Firstname/initials" — for example "Smith, A. G." or "Smith, Alex".

Add all combinations of your last name and initials under which you publish. The system will then convert the supplied name to the exact formats best required when searching each data source. Please do **not** use the format "Andrew Smith" or "AG Smith". Always write your last name first, followed by a comma.

If a name variant is only used by one online database, you can customise this setting in the relevant section of this page.

Addresses:

+

imperial

×

washington

×

[Switch to advanced view](#)

Add keywords associated with previous institutions, or those with which you collaborate.

Additional search terms

This section allows you to exactly specify additional supplementary information to narrow the results returned by name-based searches. Providing information in this section will cause you to only receive results published after the provided start date, which have the supplied keywords and which were published in one of the provided journals.

Start date:

Manage delegates and Preferred Name

You can grant a delegate (or delegates) editing rights to your account under **Set Preferred Name**.

Your delegate(s) will receive copies of your email alerts and will be able to log in (using their own credentials) and 'impersonate' you to manage and edit your records.

You can also add a preferred first and/or surname here. These settings will override the name that was imported into Elements from your HR system and will be displayed throughout Elements. It will not, however, modify your Search settings.

Manage Delegates

Add delegate

Type the surname of your delegate and a drop-down list will appear.
Choose your delegate then click on the 'Add delegate' button to complete the process.

Name (surname first):

Delegates

Daniel Hook has no delegates.

Preferred Name

Changes will not affect name based publication search settings. A review of [search settings](#) is recommended after any change.

Adding a preferred first name and/or surname will override the name that was imported into Elements for you (e.g. from your HR systems). If a preferred name is added, this will be displayed throughout Elements.

First name:

Surname:

Update preferred name

Manually adding a publication

You can always add publications manually if they are not found in the online databases. New items can be added from within your listing of records for a given section. Just select **+ ADD NEW** on the home page.

New items can also be added directly from the Home Page. Click the ADD NEW text in the bottom left corner of the section in which you would like to add the new activity.

There is automatic checking to confirm you do not create a duplicate. Just **enter** the title and search.

You can **claim or skip** to continue to the next step.

The screenshot shows a web interface for 'My scholarly & creative works'. At the top, there's a header with 'MY WORK' and 'My scholarly & creative works'. Below this, there are tabs for 'CLAIMED (5)', 'PENDING (0)', and 'REJECTED (0)'. A status bar indicates 'showing 1 - 5 out of 5' and 'sort by: Reporting date (newest first)'. A sidebar on the left has a red vertical bar with icons. A blue arrow points from the bottom left of the text area to a '+ ADD NEW' button in the bottom left corner of the 'Scholarly & creative works' section. Another blue arrow points from the right side of the text area to a '+' icon in the top right corner of the page.

Editing Records

You may wish to update or change records within the Elements system. Records that are manually created can be edited by going to the record, making any desired changes, and saving the record to update it in the system.

Records that are automatically imported cannot be edited. However, if such a record contains information that needs to be changed, you can create a manual version of that record and make any necessary adjustments and save the changes. That record will become the preferred record and will be referenced in reports, reflecting a corrected version.

The screenshot shows the Virginia Tech Elements system interface. The top header is maroon with the Virginia Tech logo and navigation icons. A sidebar on the left contains icons for home, search, and other functions. The main content area is titled "Urban myths about learning and education" and includes a "RETURN TO THE SCHOLARLY & CREATIVE WORKS PAGE" link. Below the title, there is a "Journal article" section with a pencil icon for editing. The article details include the author "Lockee BB", the journal "TechTrends", and the issue "59(6):53-56 Nov 2015". To the right of the article details is a "Labels" section with the text "1303 Specialist Studies in Education" and a "Manage labels" link. Below the article details are three sections: "Altmetrics" (showing a blue circle with the number 1), "Citation Metrics" (showing RCR, Dimensions, EPMC, Scopus, and WoS), and "Journal Rankings" (showing TechTrends, SNIP, SJR, and Impact Factor). The "Full text" section shows a link to "VtechWorks" and a message "There are no files for this item in the repository." with a "Deposit" button. The "Waiver requests" section shows a message "No waiver requests have been made for this publication. Do you need to request a waiver?". The "Data sources" section shows a "Crossref" link and a message "Set as preferred record".

Generating a Report

Reporting requirements and processes vary by college. Some colleges utilize custom reports available through the University Data Commons. These reports can be accessed directly at <https://udc.vt.edu> or via the Help page within Elements (customized by college).

To run your report in the UDC, go to the "Faculty Activity Reports" menu tab in the upper right corner of the screen. When you click on that, you'll have the option to choose an "Individual" or "Group" report. (Most individual users will only see "Individual" as an option). After selecting which report type you'd like to run, you'll see fields requesting the following information:

1. In the **College** field, select your college
2. In the **Report** field, select the report you'd like to generate. If your college has a custom report template, the name of that template will appear at the bottom of the drop-down menu.
3. In the **Faculty** field, your name should appear, given that you are logged into the system. (Two-factor authentication is required).
4. Select the **Start Date** (Month/Day/Year) and **End Date** (Month/Day/Year)
5. Click "**Download Report**"

A mapping for each report template can be accessed at the bottom of the UDC interface once a specific report is selected.
